Extract from Staff Meeting Minutes of 18 June 1979

Silver reported on some unusual requests being submitted under FOIA. These are requests for samples of classified imagery and information on the quality of satellite imagery resolution and could be problematical re SALT. The Director noted his discussion last week with Dr. Brzezinski regarding PRC(I) and PRC(Space) on declassification. He agreed with Dr. Brzezinski's position that, for now, it is better to let sleeping dogs lie--better that this come up in a crisis. During SALT ratification we should perhaps take the position that a PRC meeting would be needed before we can do anything about it. The Director said that these requests should be treated routinely under FOIA.

Extract(s) from the Staff Meeting Minutes of 18 June 1979:

Hitz said he has forwarded a memo to the Director preparatory to the Director's meeting with Senator Glenn tomorrow re SALT and other items. The Director asked that he be provided with copies of papers prepared by our briefers for that meeting. (Action: OLC)

25X1

Mr. Carlucci asked attendees to forward any special interest items they may have for Thursday staff meetings. (These should be forwarded to the Executive Secretariat for scheduling.) (Action: All)
